2.6 INGREDIENT DECLARATION

The table in Section 2.6 of the current excel PIF has four columns. The second column below can be copied directly from the first column in the current PIF.

The Country of Origin column in the table below must then be completed to state the country of origin for each ingredient.

If the ingredient may be sourced from more than one country, EITHER state 'Various' in the "Country of Origin" column below OR add additional columns, specifying one country per column.

It is recommended that the UN/LOCODE convention is used to identify country of origin.
